## Full Stack Developer

### SUMMARY

Full Stack Developer specializing in scalable React/Next.js frontends and Django-based backend systems. Delivered enterprise platforms serving 1,000+ daily users and reduced product delivery cycles by 50% through efficient architecture. Experienced in building secure RESTful APIs, optimizing system performance, and deploying production-ready web applications.

**Languages:** Arabic (Fluent), English (Excellent)

### WORK EXPERIENCE

**Transfective | Dubai** *Front-End Developer (Full-time, Remote)* *July 2024 – January 2025*

- Led frontend development of **TransHub** an enterprise localization platform automating workflows from project initiation to delivery, reducing delivery time by 50% and serving 1,000+ daily users
- Built and deployed **TransfectiveHR** an internal HR platform serving 200+ users, automating leave requests, tracking tasks, personal data and interview workflows, reducing manual HR processing time by 40%.
- Increased mobile usability scores by 35% by implementing performance-optimized, responsive UI architecture across enterprise platforms.
- Collaborated with 5-person cross-functional team to integrate RESTful APIs and deliver scalable, performant solutions achieving 95%+ client satisfaction.

**Information Technology Institute (ITI) | Mansoura** *Full-Stack Development (internship)* *June 2023 – August 2023*

- Developed a role-based library management system using Django and PostgreSQL, supporting 500+ records with secure authentication, enhanced admin panel, CRUD functionality and optimized database queries.

### QUALIFICATIONS

#### Education:

- Faculty of Computers and Artificial Intelligence | Damietta University – Egypt | Graduated: June 2024**
- GPA: 3.26** (Ranked 16 in Computer Science Department out of 300)

#### Certifications:

- Full-Stack Web Development (Django) - Information Technology Institute (ITI) *July 2023 – September 2023*
- Meta Introduction to Back-End Development - Coursera *February 2024 – March 2024*
- Meta Django Web Framework - Coursera *March 2023 – April 2023*
- Meta APIs - Coursera. *August 2024 – September 2024*

### PROJECTS

#### PROVA 3D - Virtual Try-On Online Store:

Built a full-stack AR-powered e-commerce platform integrating sentiment analysis, increasing user engagement through personalized product insights.

**Technologies:** Python, Django REST Framework, PostgreSQL, JWT tokens, React, scikit-learn, NLTK, camera kit AR.

#### COINAT - Authentic Coins Marketplace:

Developed a modern Next.js marketplace featuring advanced filtering, animations, and theme switching for premium user experience.

**Technologies:** Next.js, React, Tailwind CSS, GSAP, Framer Motion, Shadcn/UI, Lucide Icons.

#### MA7FAZTY - Personal Asset Tracker

Built a multi-asset portfolio tracker with live EGP prices, interactive donut chart, and 12-month projection engine. Supports gold, silver, USD, cash, rent, interest assets and salary with mobile-first design.

**Technologies:** Next.js, TypeScript, Tailwind CSS, Custom SVG Charts, Lucide Icons, local Storage

### SKILLS

- Languages:** JavaScript, TypeScript, Python, SQL
- Frontend:** React, Next.js, Vite, Tailwind CSS, Bootstrap
- Backend:** Django, Django REST Framework
- API & State Management:** RESTful APIs, Axios, TanStack Query
- Database:** PostgreSQL, MySQL, SQLite
- Tools & Deployment:** Git, GitHub, Vercel, Postman
- Testing Tools:** Insomnia, Hoppscotch
- UI/UX & Design:** Figma, Canva, Adobe Photoshop
- additional Skills:** Adobe premiere, DaVinci resolve
